5. Security

This website takes every reasonable precaution to protect our users' information. When users submit sensitive information via the website, their information is protected both on-line and off-line.

When our appointment/order form asks users to enter sensitive information (such as credit card number), that information is encrypted and is protected with encryption software, currently SSL encryption. While on a secure page, such as our order form, the lock icon on the bottom of web browsers such as Netscape Navigator and Microsoft Internet Explorer becomes locked, as opposed to unlocked-locked, or open, when users are just 'surfing'. While we use SSL encryption to protect sensitive information on-line, we also protect user-information off-line.

Access to all users' information, not just the sensitive information mentioned above, is restricted to our offices. Only employees who need the information to perform a specific job (for example, our billing clerk or a customer service representative) are granted access to personally identifiable information. Employees are kept up-to-date on our security and privacy practices.

The servers that store personally identifiable information are in a secure environment, behind a locked cage at a professional hosting company. Although we endeavor to create secure and reliable Sites and to safeguard against unauthorized disclosures of information, we cannot assure you that personally identifiable information that we collect will never be disclosed in a manner that is inconsistent with this Privacy Policy. You hereby acknowledge that BES Natural Solutions is not responsible for any intercepted information sent via the Internet, and you hereby release us from any and all claims arising out of or related to the use of intercepted information in any unauthorized manner.

6. External Links

The Site contains links to other websites maintained by third parties. Please be aware that BES Natural Solutions exercises no control over linked sites and is not responsible for the privacy practices or the content of such sites. Each linked site maintains its own independent privacy and data collection policies and procedures, and you are encouraged to view the privacy policies of these other sites before providing any personal information.

If we decide to change our privacy policy, we will post those changes to this privacy statement, the homepage, and other places we deem appropriate so that you are aware of what information we collect, how we use it, and under what circumstances, if any, we disclose it.

We reserve the right to modify this privacy statement at any time, so please review it frequently.
